

Education in Orthoptics and Ophthalmology Forum

Wed June 12th 2024 10.00am – 12.00am

The OCE Education committee would like to invite contributions from orthoptists and ophthalmologists about their innovations in education for presentation at the pre conference forum

Theme: **Enhancement and engagement in clinical education**

Confirmed speakers

Welcome and introduction Birgit Wahl - Germany

Digital students and the digital clinician, how technology is changing the way we learn and practice ?

Nadia Northway - UK

Use of Patient Reported Outcome Measures (Proms) to enhance engagement in research for students Sara Flodin - Sweden

The OCE education committee was founded in April 2015 as a new branch on the OCE tree with the aim of providing a forum for European Orthoptic and Ophthalmic Educators to discuss relevant education issues. The forum will provide a unique opportunity to discuss and share good practice across ophthalmic education.

We invite all those attending the ESA-ISA Congress who are currently involved or interested in the education of orthoptic students, residents, medical students or other ophthalmic personnel to attend.

The forum will comprise of presentations from educational experts in the fields of orthoptics or ophthalmology with the opportunity for questions from the delegates.

**All abstracts should be submitted by the 28h of March to
oceeducationcommittee@gmail.com following ESA guidelines:
